VycePay

Agent Standards: Dos, Don'ts & Escalation

Field Agent Standard Operating Procedure

Document ID: VP-AGENT-11 | Version 1.0

Field	Value
Audience	Market / Field Agents helping customers use VycePay
Purpose	Behaviour, compliance, and how to escalate problems.
When to use	Every visit. Mandatory read for all agents.
Estimated time	10 minutes (read) + use as needed
Language	English (show customer the app screens)

1. Always do

Step 1. Use only the official VycePay app from the official store.

Step 2. Let the customer hold the phone and enter secrets (OTP, PIN, M-PESA PIN).

Step 3. Validate recipient name before every send.

Step 4. Use small demo amounts for first-time training when possible.

Step 5. Capture the exact on-screen error message if something fails.

Step 6. End every visit by showing balance + last transaction (Guide 09).

2. Never do

Step 1. Never ask for PIN or OTP “so I can finish for you”.

Step 2. Never register using your own number for the customer's wallet.

Step 3. Never use fake / borrowed ID for KYC.

Step 4. Never send money to your personal account as a “test” without written approval.

Step 5. Never promise instant bank approval times you cannot control.

Step 6. Never install APKs from WhatsApp / unknown links.

3. Escalation — what to record

Item	Example
Customer mobile	2547XXXXXXXX
Time (local)	2026-09-30 14:05
Flow	Deposit / Paybill / KYC / Login
Amount (if any)	KES 100

On-screen message	Copy exact text
What you already tried	Resend OTP once, refresh balance

Escalation rule

One clear retry is allowed. Do not spam Send / Deposit. Then escalate with the table above to your supervisor / support channel.

4. Visit completion checklist

- ■ Customer can log in
- ■ Wallet open (or KYC status explained)
- ■ At least one successful money movement if funding was planned
- ■ Customer knows Forgot PIN and support path
- ■ No PIN/OTP written in your notes
